COMPREHENSIVE PMB FORMULARY
November 2026

Depending on the specific scheme option, products included on this chronic medicines formulary will not attract a co-payment if authorised by Chronic Medicine Management for a disease on the CDL and obtained from the Designated Service Provider (where applicable). **Reimbursement will however be subject to the Chronic Medicine Management clinical guidelines and protocols and the Drug Reference Price (DRP).**

Please Note:

KEY to Chronic Medicine Management Reimbursement Criteria for use of preferred formulary drugs:

Quantity/dosage and duration of authorisation may vary - depending on the requested drug.

Accepted Treatment - will be authorised without requesting additional clinical information (unless specific concerns e.g. unusual dose requests).

Clinical Review - will be authorised if the drug history or co-morbidity clearly indicates that use of the drug is indicated in the specific patient.

Clinical Motivation - specific clinical information required before reimbursement is considered

Specialist Script - will require a relevant specialist's prescription before reimbursement is considered

Specialist Motivation - will require a relevant specialist motivation before reimbursement is considered

Special Investigations (SI) - results of recent relevant tests required before reimbursement is considered
