Introduction

GEMS considers the Family Practitioner (FP) to be at the heart of the healthcare process. The Scheme appreciates the intensive work done by FPs to ensure that its members receive the quality healthcare they need. It is well documented that fragmented and low-quality healthcare is increasing the burden of disease and healthcare costs globally. To improve members' healthcare outcomes, GEMS therefore embraces all efforts to coordinate the care of its members. The Scheme recognises that, as a Network FP, you occupy an invaluable and fundamental position as the overall coordinator of care for its members.

This guide has been created to assist you in supporting GEMS members. It contains all the important information required to treat GEMS members effectively, and to navigate our benefits, tariffs, programmes, and processes.

We look forward to partnering with you in 2024.

GEMS 2024 Family Practitioner Guide

1

Tariffs and Fees

For 2024 Family Practitioner reimbursement, kindly refer to the tables below.

GEMS FP Network Tariffs and Fees:

Consultation Rates (Codes: 0190-0193)				
		Enhanced Fees (these fees are automatically added when a consult is processed)		
	GEMS Network tariff fee	REPI ² Cat 1	REPI ² Cat 2	
REO FPs	R 494.10	R 69.80	R 31.60	
Family Physicians	R 640.90	R 69.80	R 31.60	
	Level	Dispensing doctor tariff	Non-dispensing doctor tariff	
Tanzanite One and Beryl	Level 1	R 489.60	R 378.80	
FPs	Level 2	R 471.60	R 378.80	
	Level 3	R 430.70	R 352.40	

GEMS FP Non-Network Tariffs and Fees:

GEMS Beneficiary Consulting	GEMS Non-Network Tariff Fee	GEMS Non-Network Tariff Fee		
REO	R	R 446.00		
Tanzanite One and Beryl	Dispensing FP	Non-Dispensing FP		
	R 446.00	R 446.00		
Family Physicians	R	R 465.70		

- The GEMS REO (Ruby, Emerald, Emerald Value and Onyx) and TB (Tanzanite One and Beryl) FP Network reimbursement models for 2024 will continue to include an enhanced fee based on the provider's REPl² category score.
- The enhanced fee will automatically be added when the practice is reimbursed for consultations.
- A performance report is distributed quarterly to keep Network FPs up to date with the latest information about the GEMS REPI² categories and their adherence performance.
- FPs and Family Physicians can motivate to upgrade their REPI² category on clinical grounds, by sending an email to REPIcorrespondence@medscheme.co.za. Reviews are considered within 10 working days and then operationalised.
- It is important that FPs adhere to their contractual undertaking to bill according to the agreed GEMS rate, so that members are not faced with unexpected co-payments.

What's New in 2024

GEMS Hospital Network

Members on the Tanzanite One and EVO options must make use of the GEMS Hospital Network for hospital admission. Voluntary use of a non-network hospital will result in a co-payment of **R15 000**. To view and download the GEMS Hospital Network list, please access the **GEMS** website.

Enhanced Paediatric Benefit

From 2024, GEMS will fund cost-effective medicines for intestinal flora if prescribed for beneficiaries up to and including 6 years of age. This will pay from available benefits and excludes self-medication and over-the-counter purchases.

Continuous Glucose Monitors (CGM) and Insulin Pumps

From 2024, GEMS will fund one CGM / Insulin Pump (and consumables) subject to clinical protocols and available benefits every 5 years for beneficiaries with Type 1 Diabetes who are under the age of 18.

GEMS Programmes and Improvements

GEMS Palliative Care Programme

GEMS has partnered with Alignd to offer a Palliative Care Programme that provides all eligible members and their family support with quality care and holistic management when appropriate during the oncology disease journey. This comprehensive, value-based, and specialised palliative care is currently provided to members with advanced-stage or metastatic cancer. It includes pain management and relief from psychosocial distress, and supports and enables a home-based care approach.

If your patient has been diagnosed with advanced-stage or metastatic cancer, or one of the poor-prognosis cancers, they are eligible for the Palliative Care Programme, subject to the enrolment criteria. Kindly refer all potentially eligible GEMS patients directly to the Palliative Care team by emailing referrals@alignd.co.za.

Population Medicine Programme

Population Medicine is a value-based care programme designed to help vulnerable populations and those in under-served communities by providing a support network that can help address health risks and promote wellness. The programme is based on the concept of a Multi-Disciplinary Team (MDT) comprising a Physician as a lead, the Family Practitioner, nurses (as care coordinators), and Allied providers, to ensure holistic care for our members.

The Population Medicine value-based care allows service providers to provide a shared services hub for clinicians that encompasses a complete support infrastructure, including proprietary toolkits and an Intelligent Care System. To participate in the Population Medicine Programme, providers are expected to meet the following criteria:

- The ability to establish integrated Multi-Disciplinary Teams (MDTs) in places where there are clinicians who are willing to come together and work as the MDT, supported by allied healthcare providers.
- The ability to support and train local teams of MDTs on protocols and systems to realise value-based care.
- Be willing to act as the focal point for care coordination by providing the MDT with value-based care
 protocols and bringing together allied healthcare professionals such as social workers and care
 coordinators as and when appropriate.
- Make use of evidence-based protocols for the management of the identified or enrolled members/ patients.
- Have a demonstrated track record of value-based service provision.

Please call us on 0860 436 777 or email enquiries@gems.gov.za for information about how the Population Medicine programme works, or if you are interested in joining this programme.

GEMS Practitioner App and Portal

GEMS recently launched a fully re-designed Practitioner App and Portal. The platform boasts a sleek, fresh look and feel, and improved user functionality and experience. Highlights are:

- A seamless on-boarding experience that includes user guides and descriptions of the Practitioner App and Portal features;
- · Quick access to membership and benefits confirmation;
- · Claims submissions and access to the GEMS Tariff files;
- A convenient ICD-10 code search functionality;
- A document upload section;
- Practice profile update requests; and
- Provider Frequently Asked Questions (FAQs).

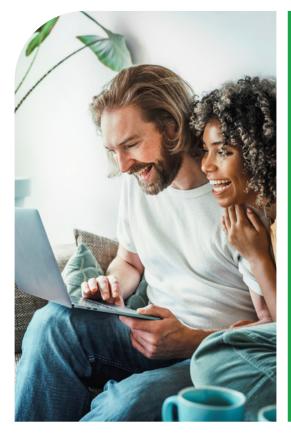

Access the Practitioner portal at hcp.gems.gov.za and download the GEMS Provider App from Google Play or the App Store, or use the QR code.

GET IT ON Google Play

Please ensure that all your practice information, including contact details, are updated with the BHF so that you are able to receive the OTP during registration.

GEMS Health Practitioner Summits

GEMS has the pleasure of requesting your participation in strategic and meaningful conversations with the Scheme. As a Healthcare Professional, you are an important stakeholder for the Scheme. GEMS would therefore like to develop and strengthen relationships with you through these conversations.

The following topics will be covered at the GEMS Summits:

- GEMS into the future;
- Network related matters;
- Claims payments; and
- Fraud, waste, and abuse.

Please lookout for an invitation to these events to be hosted in 2024 in the following provinces:

- 09 March Polokwane, Limpopo
- 08 June Port Elizabeth, Eastern Cape
- 07 September Durban, KZN

Access to a medical advisor

GEMS understands that there may be times when you would like to discuss your patient's treatment and authorisation with a Medical Advisor. Please see **page 14** for full details on the various ways to easily schedule this important conversation.

In-Rooms Procedures

GEMS has identified certain procedures that can be performed safely in the doctor's rooms without the need for hospital admission. We urge you to consider performing these procedures in your rooms if competent and appropriately equipped, to ensure patient safety.

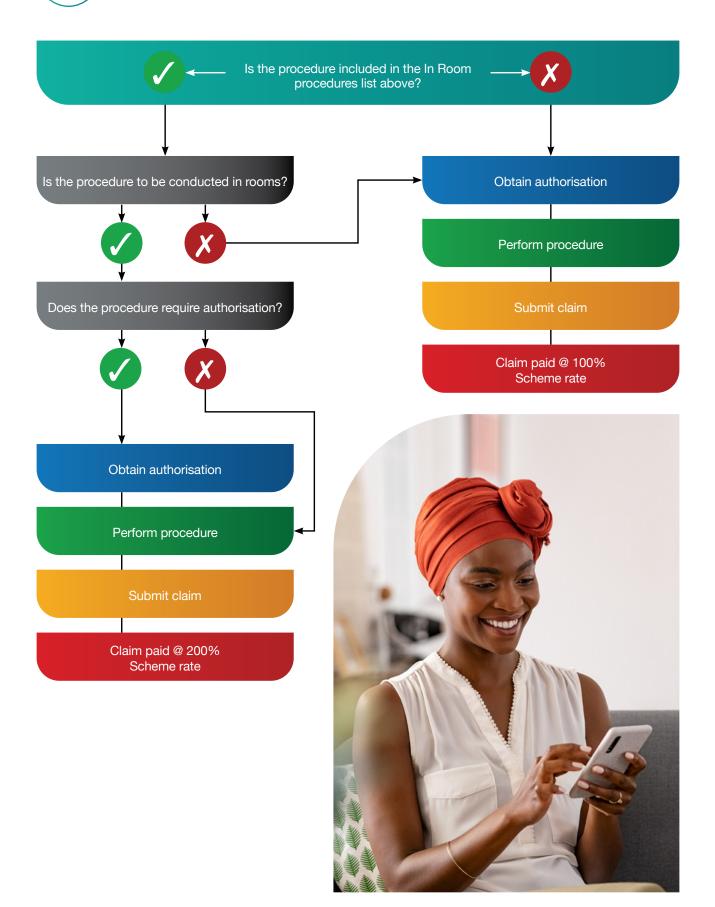

The table below lists the procedures that are remunerated at 200% of Scheme rate if performed in the doctor's rooms. The rate is inclusive of equipment and/or instrumentation used for the procedures and it applies to all Scheme options. Please also note that:

- Certain procedures are subject to pre-authorisation;
- · The 200% tariff is inclusive of all modifiers; and
- The list may change as new procedures are added and/or others removed. Any such changes will be communicated.

Code	Procedure	Pre-authorisation required
0244	Repair of nail bed (only for ingrown toenail)	No
0307	Excision and repair by direct suture; excision nail fold or other minor procedures of similar magnitude (only for ingrown toenail)	No
0310	Radical excision of nailbed (only for ingrown toenail)	No
1018	Flexible nasopharyngolaryngoscopy examination	No
1587	Upper gastrointestinal endoscopy	Yes
1653	Total colonoscopy (including biopsy)	Yes
1656	Left-sided colonoscopy	Yes
1676	Flexible sigmoidoscopy (including rectum and anus)	No
1677	Sigmoidoscopy: First and subsequent, with or without biopsy	No
1679	Sigmoidoscopy with removal of polyps: First and subsequent	No
1681	Proctoscopy with removal of polyps: First time	No
1683	Proctoscopy with removal of polyps: Subsequent times	No
2207	Vasectomy	No
3045, 3047, 3050, 3051, 3052	Cataract surgery	Yes

Circumcision procedures can also be performed in the doctor's rooms and are subject to pre-authorisation, managed care protocols and processes, and the use of a GEMS Network FP. Circumcisions are limited to a global fee of R1 906 which includes all post-procedure care, consultations, and medicine within a month of the procedure.

Simplified process for authorisation of doctor's room procedures

How to request authorisation*

Providers may create an authorisation online, or request one by calling 0860 436 777 or sending an email to hospitalauths@gems.gov.za. The following information is required:

- Patient membership number;
- Beneficiary/Dependant number;
- Treating provider practice number;
- Clinical codes (ICD-10 and relevant tariff codes);
- Place of service; and
- Date of service.

Once approved, the authorisation number will be sent to both the member and the healthcare provider.

*See more on the Authorisation process on **page 11**. **Please note:** The following three tables are applicable to the Tanzanite One and Beryl options only.

Procedure codes that can be charged in addition to a consultation code

GEMS tariff code	Procedure	
0300	Stitching of a wound	
0301	Stitching of an additional wound	
0307	Excision and repair	
0255	Drainage of subcutaneous abscess and avulsion of nail	
0259	Removal of foreign body superficial to deep fascia	
0887	Limb cast (including cost of POP and material)	
1725	Drainage of external thrombosed pile	

Procedure codes that can be charged in addition to a consultation code but subject to authorisation*

GEMS tariff code	Procedure	
1186	Flow volume test: Inspiration/expiration	
1188	Flow volume test: Inspiration/expiration/pre- and post-bronchodilator	
1234	ECG bicycle	
1235	ECG multistage treadmill	
2713	Lumbar puncture	

*Note that these codes will only be allowed for the diagnosis and management of approved chronic conditions for registered chronic members as part of the chronic condition benefit, subject to PMB treatment guidelines. Payment will be subject to the doctor submitting the results for these tests. Please refer to the GEMS **website** for more information on specific tariff rates.

Codes which are included in the consultation fee**

GEMS tariff code	Procedure	
0145, 1046, 1047, 0148, 0149	Modifiers	
0017	Injections by practitioner	
0202	Setting sterile tray	
0205	Intravenous infusions (patient under 3 years)	
0206	Intravenous infusions (patient over 3 years)	
0222	Intralesional injection into areas of pathology e.g. Keloid: Single	
0223	Intralesional injection into areas of pathology e.g. Keloids: Multiple	
0233	Biopsy without suturing: First lesion	
0234	Biopsy without suturing: Subsequent lesions	
0235	Biopsy without suturing: Maximum for multiple additional lesions	
0241	Treatment of benign skin lesion by chemo-cryotherapy: First Lesion	
0242	Treatment of benign skin lesion by chemo-cryotherapy: Subsequent lesions (each)	
0243	Treatment of benign skin lesion by chemo-cryotherapy: Maximum for multiple additional lesions	
0244	Repair nail bed	
0245	Removal of benign lesion by curetting under local or general anaesthesia	
0661	Aspiration of joint or intra-articular injection	
0663	Multiple intra-articular injections for rheumatoid arthritis: First joint	
0763	Muscle and tendon repair: Tendon or ligament injection	
1063	Removal of foreign bodies from nose in rooms	
1136	Nebulisation in rooms	
1192	Peak Flow	
1228	ECG: Without effort	
1232	Electrocardiogram: Without effort	
1233	Electrocardiogram: With and without effort	
1996	Bladder catheterisation: Male (not at operation)	
1997	Bladder catheterisation: Female (not at operation)	
2442	Insertion of intra uterine contraceptive device (IUCD): Excluding cost of device	
2565	Implantation hormone pellets	
3275	Audiometry – tympanometry	
3287	Spinal joint and ligament injection	
4188	Urine dipstick, per stick (irrespective of the number of tests on stick)	

**This list refers only to commonly used codes and is not exhaustive.

Benefits for **GEMS Options**

All GEMS options include an out-of-hospital benefit to facilitate the efficient management of healthcare services for members without requiring hospitalisation. Some of these benefits are highlighted in the table below. More details are available at **www.gems.gov.za**.

Option	Radiology	Pathology	Out-of- Hospital benefits	Personal Medical Savings Account	Allied Health Services	Maternity	Acute & Chronic Medicine
Tanzanite One (Network option)	~	1	\checkmark	×	<i>✓</i>	<i>✓</i>	1
Beryl	1	1	\checkmark	×	1	1	1
Ruby	1	1	1	1	<i>✓</i>	<i>✓</i>	1
Emerald Value (Network option)	~	1	1	×	<i>✓</i>	<i>✓</i>	✓
Emerald	1	1	\checkmark	×	1	<i>✓</i>	1
Onyx	~	1	\checkmark	×	<i>✓</i>	<i>✓</i>	1

Important points to keep in mind:

Tanzanite One

- Members must nominate an FP and use the nominated FP for all their consultations.
- Unlimited FP consultations are allowed for members visiting a nominated FP within the GEMS FP Network.
- Consultations with a FP other than nominated network FPs are limited to three (3) visits per beneficiary per annum. A 30% co-payment will apply to all additional claims from a nonnominated GEMS Network FP.
- Referral from a nominated FP is required for all specialist consultations.
- Voluntary admission to a non-network hospital will attract a R15 000 co-payment.

Ruby

 Members have a Personal Medical Savings Account (PMSA) and a block benefit to cover out-ofhospital benefits.

Beryl

- Beryl members have unlimited consultations with network FPs.
- Consultations with a non-network FP are limited to three (3) visits per family, subject to limits. A 30% copayment will apply once these have been depleted.

Emerald Value

- Members must nominate an FP and use the nominated FP for all their consultations.
- Consultations must be with nominated FPs within the GEMS FP Network.
- A 30% co-payment will apply on a claim from a non-nominated GEMS Network FP.
- Referral from a nominated FP is required for all specialist consultations.
- Voluntary admission to a non-network hospital will attract a R15 000 co-payment.

Family Practitioner Nomination

At GEMS we are truly committed to the concept of coordination of care and recognise the key role of the FP in this regard. For this reason, we have made it compulsory for all beneficiaries on the Tanzanite One and Emerald Value Options to nominate their treating Network FP who will coordinate their care. Tanzanite One members are entitled to three (3) visits per beneficiary per year with a FP who is not their nominated FP.

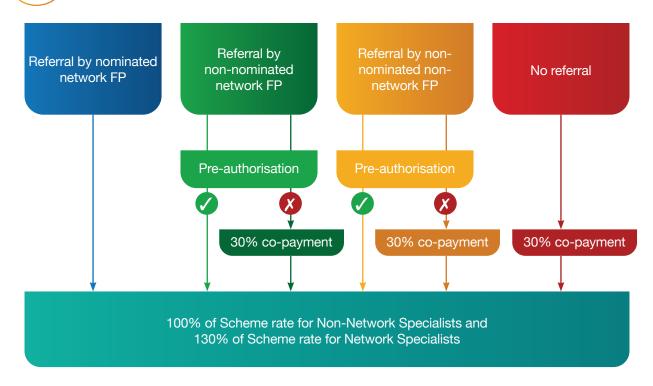

Beneficiaries on other options (Ruby, Beryl, Emerald, and Onyx) are also encouraged to nominate their FP to coordinate their care.

If you consult with GEMS members who request you to be their nominated FP, simply ask them to contact the GEMS call centre on 0860 00 4367 to arrange for your nomination to be captured on the system.

Specialist Referral

In order to avoid having to pre-authorise a specialist consult, and/or avoid a 30% co-payment, beneficiaries on the Tanzanite One and Emerald Value options require a referral from their nominated Network FP. The referring practitioner's practice number (the nominated FP for Tanzanite One and Emerald Value options) needs to be stated on the specialist's claim to avoid the member incurring a co-payment.

Guide to specialist referrals for Tanzanite One and Emerald Value options

Specialist Type	Specialist Type Description	Specialist Type	Specialist Type Description
12	Dermatologist	28	Orthopaedic surgeon
16	Gynaecologist (excluding maternity cases)	30	Otorhinolaryngologist (ENT)
17	Pulmonologist	31	Rheumatologist
18	Physician	32	Paediatrician*
19	Gastroenterologist	36	Plastic and reconstructive surgeon
20	Neurologist	42	Surgeon
21/33	Cardiologist and Paediatric cardiologist	44	Cardiothoracic surgeon
22	Psychiatrist (excluding renewal of prescription)	46	Urologist
24	Neurosurgeon		

Below is a quick reference guide for specialist practice types requiring a specialist referral:

*Please note that children under 2 years of age do not require a referral

How to find a GEMS Network provider:

Members can access the list of FP and Specialist Network providers via:

- GEMS website: www.gems.gov.za
- GEMS Call Centre: 0860 00 4367
- Email: enquiries@gems.gov.za

The authorisation process

When is pre-authorisation required?

- Certain consultations and/or procedures (e.g. specialist consultations where referral was from a non-nominated/non-Network FP)
- Certain doctor's room procedures
- Hospital admissions
- Specialised radiology investigations (e.g. CT, MRI, angiogram, radio-isotope scans)
- In-hospital physiotherapy (this must be pre-authorised in addition to a hospital admission)

Mandatory details required for pre-authorisation:

- Membership number
- Patient's name and surname
- Patient's beneficiary number
- Patient's date of birth in the format DDMMYYYY
- Date of service
- Provider's practice number
- Hospital or facility practice number
- Reason for authorisation (ICD-10 code of diagnosis)
- Specialist referral: The number of months that you want the patient to visit the specialist (between 1 and 6, e.g. 3)
- Hospitalisation: Date of admission or event
- Diagnosis (ICD-10 codes)
- Proposed surgical or diagnostic procedure or specialised radiological intervention (CCSA, RPL codes).

An authorisation can be obtained by calling GEMS on 0860 436 777.

Providers are able to create, view and update preauthorisations online after registering a profile on the managed care organisation's **website**. The registration form can be requested via email from UMSAccessManagement@medscheme.co.za or by calling the provider call centre on 0860 436 777.

Possible responses to a pre-authorisation request

- **APPROVED:** Funded by Scheme according to Scheme rates and PMB legislation
- DECLINED: Not funded by Scheme for various reasons
- PENDING: Clinical information required to assess medical necessity and clinical appropriateness

The authorisation outcome will be communicated to the member, healthcare provider and/or facility via telephone, SMS, email or post should there be no email available.

The member or treating healthcare provider may appeal a funding decision but must be able to provide additional information and/or documentation to support the appeal.

Access to a Medical Advisor (MA)

In the event that an FP/Specialist would like to discuss the funding of a patient's clinical treatment, they can now book an appointment with a Medical Advisor (a medical practitioner) online, request a call-back via SMS, or make use of a dedicated email address to query specific details.

To book an appointment

Ensure that you have your patient's full name, membership number (and dependant code), and authorisation reference number with you, then:

- Navigate to www.medscheme.com
- Log in as a Provider
- Click on Authorisations and then Medical Advisor Appointment which will direct you to a booking platform
- Select Service and then either Hospital Event Management or Chronic Medicine Management
- Enter the required information and once complete, you will receive confirmation of your scheduled appointment via email.

A Medical Advisor will call you at the date and time you have scheduled.

To request a call-back

Please send an SMS to 44845 with the following information:

- FP/Specialist practice number
- FP/Specialist full name and surname
- Patient membership number and dependant code/name
- Authorisation or reference number (if available)
- Requested date and two (2) requested times for an MA to call back (optional)
- Indicate in short the nature of the clinical query, e.g. Hospital, Chronic Medicine or Oncology-related query (optional)

The turnaround time for this process is 8 hours but you will receive a response within 2 to 4 hours to acknowledge receipt of the query, with the aim to find a resolution to the query within 8 hours.

Email queries

Should either of the above options not be suitable, an email can be escalated to the following address: gemsdoctors@medscheme.co.za.

Please note that engagements with a Medical Advisor can only be used to discuss the funding of your patient's clinical treatment. The Medical Advisory Team is not responsible for managing claims-related queries.

Preventative Care and Screening Services

Beneficiaries on all Scheme options have access to a preventative care and screening benefit that pays from risk. A full list of available tests and screenings is published on the GEMS **website**. In order to facilitate payment, please use the correct tariff code (where applicable).

SCREENING SERVICES				
Procedure	Tariff code for Practice type 14/15	Frequency	Eligible beneficiaries	
Cholesterol screening	Code 4027	Once per year	20 years and older	
Pap smear / Hr-HPV-DNA test	Code 99385 (Sterile tray and specimen handling fee) to be billed together with tariff 0190 - 0193	Once per year	Females 12 - 65 years	
HIV/AIDS pre-test counselling with no test	Code 7016	Once per year	All beneficiaries	
HIV/AIDS screening test, post-test counselling, confirmatory test and condoms	Code 7017	Once per year	All beneficiaries	
Mammography screening	Code 3605	Once per year	Females 40 years and older	
Glucose screening	Code 4050 (Glucose strip-test with photometric reading)	Once per year	20 years and older	
TB screening	Code 0221 Code 0201 (0201 with NAPPI 872938-027 Tuberculin PPD RT/23 Vial 1.5 ml)	Once per beneficiary per year	All beneficiaries	

As part of the HIV standard care plan, the GeneXpert Mycobacterium Tuberculosis / Rifampicin (MTB/RIF) assay is limited to one (1) every three (3) months. Should additional tests be required, these will need to be motivated for and will be subject to review and approval. The Lipoarabinomannan (LAM) test is available once per year and cannot be done in combination with the GeneXpert test.

Tariff Code	Test	Description	
4655	Lipoarabinomannan Ag (LAM)	TB Lipoarabinomannan Ag (LAM)	
3974	TB PCR/GeneXpert	PCR M.TB	
4434	TB PCR/ GeneXpert	Bacteriological DNA identification (PCR)	
4431	TB PCR/ GeneXpert	Mycobacterium PCR ID	

VACCINATIONS	PAYABLE FROM THE SCREENING A	ND PREVENTAT	IVE CARE BENEFIT
Procedure	rocedure Relevant codes for Practice type 14/15		Eligible beneficiaries
	836591 Vaxigrip [®] Junior 0.25ml		For all beneficiaries 6 - 35 months
	3000826 Vaxigrip Tetra single dose 0.5ml pre-fill		All beneficiaries ≥3 years of age
	732826 Influvac		All beneficiaries ≥6 months of age [#]
	813338 Vaxigrip 0.5ml		All beneficiaries ≥6 months of age [#]
Influenza	3002734 Influvac Tetra	Once per year	All beneficiaries ≥3 years of age
vaccination	3000826 Vaxigrip Tetra 0.5ml		All beneficiaries ≥6 months of age
	3002768 Fluarix Tetra 0.5ml		All beneficiaries ≥6 months of age
	0017 FP modifier, to be charged together with a NAPPI code if there was no consultation 0190-0193/0017		
Pneumococcal vaccination	755826 Pneumovax 23 single dose vial 0.5ml 715858 Prevenar 13 pre-filled syringe 0.5ml Modifier 0017	Once every 5 years	High risk beneficiaries: ≥65 years 2 - 64 years with a chronic registration / relevant hospital admission*
HPV vaccination	710020 Cervarix Pre-filled Syringe 0.5ml 710249 Gardasil Injection Modifier 0017	One course per beneficiary per lifetime**	Females 9 - 45 years
	3002823 COVID-19 Vaccine Administration Fee		
COVID-19	3003366 COVID-19 Vaccine Janssen	One dose per beneficiary***	18 years and older
vaccination	3003282 COVID-19 Vaccine Pfizer	Two doses per beneficiary***	18 years and older
	3003282 COVID-19 Vaccine Pfizer	One dose per beneficiary***	12 to 17 year age

- Injections administered by practitioners: When desensitisation, intravenous, intramuscular or subcutaneous injections are administered by the practitioner him-/herself to patients who attend the consulting rooms, a first injection forms part of the consultation/visit and only all subsequent injections for the same condition should be charged at 7.50 consultative services units using modifier 0017 to reflect the amount (not chargeable together with a consultation item).
- * Chronic heart disease, including congestive heart failure and cardiomyopathies; Chronic lung disease, including chronic obstructive pulmonary disease, emphysema and asthma (smokers with chronic lung disease secondary to smoking); Diabetes mellitus; Cerebrospinal fluid leaks; Cochlear implant(s); Alcoholism; Chronic liver disease; Congenital or acquired immunodeficiencies (includes B- (humoral) or T-lymphocyte deficiency, complement deficiencies), and phagocytic disorders (excluding chronic granulomatous disease); HIV infection; Chronic renal failure or nephrotic syndrome; Leukaemia or lymphoma; Hodgkin disease; Generalised malignancy; latrogenic immunosuppression (diseases requiring treatment with immunosuppressive drugs, including long-term systemic corticosteroids and radiation therapy); Solid organ transplant; Multiple myeloma.
- ** Ages 9-14: 1 course = 2 doses (Initial single dose, then follow-up dose at 6 or 12 months)
 Ages 15-45: 1 course = 3 doses (Initial single dose, then follow-up doses at 2 and 6 months)
- *** The frequency of COVID-19 vaccination is subject to change in line with developments communicated by the National Department of Health.

Vaccinations payable from the Vaccination Benefit

An additional risk benefit for vaccinations is available for beneficiaries on all GEMS options. A limit of R908 per beneficiary per year applies and funding is allowed for Practice types 14, 15, 60, 61, 63, 110 and for Specialists. Tariff codes 0017 should be used for FP administration.

Alternatives to Hospitalisation

Sometimes members need medical care but do not necessarily need to receive it in hospital and will in fact do better in the comfort of their own home, with suitable medical care. Even though these benefits do not involve admission to hospital, they are funded from the overall annual limit and will not deplete a member's available day-to-day benefit.

If you have a patient who may qualify for this benefit, discuss it with them and email your clinical view in a referral, or a letter of motivation with the request for out-patient care, to Homebasedcare@medscheme.co.za.

The following services are covered from this benefit:

- Hospital at Home: This service includes real-time hospital-grade monitoring at home, virtual and in-person visits, skilled nursing, access to additional medical services as required, and rapid response protocols to transfer a patient to a hospital, should the need arise.
- Home nursing: This service could be used in instances such as assistance with mobilisation after a long-term illness, neonatal care, the care of long-term ventilated patients, stoma care, etc.
- Physical rehabilitation: This service can help members recover after an acute traumatic episode such as post-surgery, physical trauma, or amputation; or after a medical episode such as a stroke. (Please note that there is a special physiotherapy benefit available after a hip, knee, or shoulder replacement.)
- Palliative care: This service, which can be provided in a hospice or at home, is available for terminally ill members who require end-of-life care such as pain management.
- Other: In addition to prescribed treatments such as intravenous (IV) therapy, Outpatient Antibiotic Treatment (OPAT) and home dialysis, the alternatives to hospitalisation benefit also covers home oxygen, stepdown/sub-acute care, and wound care.

Prescribed Minimum Benefits

Prescribed Minimum Benefits (PMBs) are minimum benefits that GEMS provides in accordance with the Medical Schemes Act. **GEMS offers these benefits to all members for the diagnosis, treatment and care of specified medical conditions, including:**

- A list of 271 medical conditions;
- Any emergency medical condition; and
- 26 chronic conditions that can be found in the Chronic Disease List (CDL);

The complete lists are available at www.medicalschemes.co.za

PMB conditions

Out-of-hospital PMBs are managed by activating treatment plans or baskets of care, which are valid for a benefit year (1 January - 31 December). Treatment plans outline the annual number and type of consultations, pathology and radiology per condition. Members access these benefits by completing and submitting the PMB request form, or automatically when a chronic medicine authorisation is generated, or a claim is submitted matching the PMB criteria for that condition.

If a member is registered for more than one chronic condition, the various care plans will be merged and the member will be authorised for the maximum of the highest number of treatments in the plan for each service, and not for an accumulative quantity.

It is also important that the correct ICD-10 codes are submitted on all claims to ensure correct payment. Once the treatment plan has been loaded, the applicable claims will be paid from the relevant day-to-day benefits. Should these also become depleted, claims will be paid from risk according to the authorisation given.

- The Care Plans are communicated when a beneficiary is newly registered and thereafter at the start of each benefit year.
- The PMB request form is available on the GEMS website, or telephonically on 0860 00 4367 via Client Services.
- The treating doctor and patient must complete the relevant information and sign the form before submitting.
- Application forms should be submitted to enquiries@gems.gov.za.
- In instances where additional services are required over and above the standard care plan provided, a motivation with the completed application form may be submitted to enquiries@gems.gov.za.
- In order to request a copy of the care plan, FPs may call 0860 436 777, while members may call 0860 00 4367.

Where members have an active waiting period imposed by the underwriters and they are not eligible for PMB cover, claims submitted will be declined.

Designated Service Provider (DSP)

A DSP is a healthcare provider or group of providers who have been selected by and have a contract with GEMS to provide members with a diagnosis, treatment and care in respect of medical conditions, including PMB conditions according to an agreed fee schedule.

GEMS has contracted with healthcare providers or groups of providers to provide healthcare services to members. Although all GEMS members may access care from other private providers for PMB services, the level of care and services funded as PMB are determined by that provided by State facilities. The availability of the procedure or service at a State hospital also informs the funding decision in terms of the rate of pay for PMB cases for providers associated with in-hospital events. The established GEMS networks are:

Claims for any member voluntarily making use of a non-DSP will be funded at Scheme rates only. Network providers will be funded at Network rates. Should a member make use of a non-DSP involuntarily, as in the case of an emergency or where the service is not available or accessible at a DSP, the claim will be funded at cost. These rules also apply to all anaesthetist claims.

A note on the Renal Dialysis Network

GEMS has a Renal Dialysis Network in place for all benefit options, made up of willing and able renal dialysis providers. This network is aimed at limiting members' exposure to co-payments, enhancing the quality of care, and maintaining access to dialysis for GEMS beneficiaries.

Beneficiaries requiring chronic dialysis must make use of providers on the GEMS Renal Dialysis Network. An out-of-network co-payment of 30% of the Scheme tariff will be applied to each service received voluntarily from a non-Network renal dialysis provider, whether the visit was authorised or not.

This co-payment will not apply:

- If the patient does not live or work within a 50km radius of a Network facility (although this would be subject to authorisation, managed care review and approval), or
- In the case of acute dialysis.

GEMS 2024 Family Practitioner Guide

S

A claims query process is in place to review short-paid hospital claims retrospectively, for possible PMB eligibility.

The review process takes the following into account:

- Is the ICD-10 code a PMB?
- Was the event an emergency?
- Is the provider on the Network?
- · Was the service provided PMB level of care?
- Was a DSP accessible?

The outcome of the review will be communicated to the provider and, if the request is declined, a reason will be provided.

The process outlined above has been extensively reviewed and is continuously monitored to ensure that timeous feedback is provided. Reviews are generally completed within 12 working days, depending on the nature of the query and investigation required.

Healthcare providers may appeal the decision if PMB at cost is declined. This follows a defined process that includes obtaining additional information, internal committee review and external consultant review, if necessary. All escalations and/or appeals should be submitted to enquiries@gems.gov.za.

Medicine

Acute Medicine

Beneficiaries on all GEMS options have an acute medicine benefit. Acute medicine can be obtained from a dispensing FP or a Pharmacy when prescribed by a non-dispensing FP. Acute medication, dispensed by the GEMS Tanzanite One and Beryl dispensing FPs, is included in the consultation fee. The FPs dispensing status and Dispensing License number must be indicated on the applicable contract annexure. In the event where a Dispensing FP does not have the prescribed medication in stock, a maximum of three (3) scripts of up to R242 each per beneficiary per year may be obtained from a Network pharmacy.

Non-dispensing Network FPs are not licensed to dispense medication, but can prescribe acute medication from the GEMS Acute Formulary List. For Tanzanite One and Beryl members, prescribed acute medicine should be obtained from GEMS DSP Network pharmacies, subject to Scheme rules.

GEMS Medicine Formularies

- Formularies are published on the GEMS website for easy access by members and providers.
- Formularies are reviewed and updated throughout the year.
- GEMS makes use of the following formularies:
 - Acute Formulary (Tanzanite One and Beryl options)
 - Acute Out-of-formulary List (Ruby, Emerald and Onyx options)
 - Comprehensive PMB formulary
 - Contraceptive list
 - COVID-19 Vitamin List
 - Homeopathic List
 - Maternity Vitamins List
 - Medicine Exclusion List (MEL)
 - Medicine Price List (MPL)
 - Medicines Pre-authorisation List
 - Specialised Oncology Drugs List

Chronic Medicine

Chronic medicine benefits are managed using the following tools:

- Clinical and reimbursement guidelines
- GEMS Medicine Formularies
- Medicine Price List (MPL)
- List of medicines that require preauthorisation

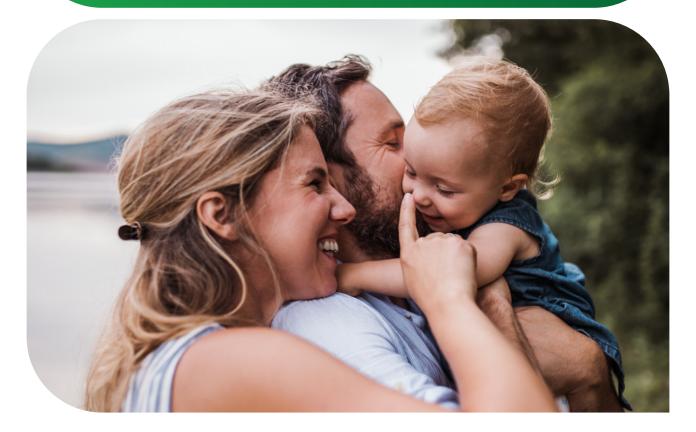

New chronic registration and updates

- Members, doctors and pharmacists can contact the Chronic Authorisation Department to register new applications or update existing authorisations. Alternatively, they may obtain the chronic application form on the GEMS website by clicking here or request it telephonically by calling 0860 00 4367.
- When calling, the membership details will be required, as well as a valid prescription with the diagnosis or ICD-10 code.
- Alternatively, both the treating doctor and patient must complete the relevant information on the chronic application form and sign it before it is submitted.
- The chronic application form or valid prescription may be submitted to chronicdsp@gems.gov.za and the request will be processed within 5 working days.
- A disease basket containing medication used to treat the condition will be authorised, allowing changes in the prescription to be made without needing to update the chronic authorisation.
- Please note that underwriting may apply (e.g. general and condition-specific waiting periods).
- Healthcare providers may contact the Chronic Authorisation Department on 0860 436 777, and members may call 0860 00 4367.

-| (8)

- FPs can submit a claim for completion of the chronic application form or for doing a telephonic registration for chronic medicines. Please note that reimbursement will be conditional upon completion of the registration process and not merely on submission of a claim.
- The GEMS HIV/AIDS Disease Management Programme (DMP) supports the effective rollout of Test and Treat (TAT) to all our members. It is recommended that all HIV positive patients be registered on the programme.
- To enroll members on the GEMS HIV/AIDS Disease Management Programme:
 - Call 0860 436 736 from Monday to Friday between 8am and 5pm and Saturday between 8am and 12pm;
 - Send an email to GEMS at hiv@gems.gov.za for further information on the programme and to ask for an application form;
 - The forms to register on the GEMS HIV Disease Management Programme and for Post Exposure Prophylaxis (PEP) are available to download from the website. Registration on the programme is within 5 working days, and PEP will be funded from receipt of the fully completed form.
 - Please note that the member and treating provider are both required to sign the application form before submitting to GEMS by fax to the confidential toll-free fax number 0800 436 732, or via email to hiv@gems.gov.za. As soon as your application has been received and approved, you will be notified via email.
- A full guide on HIV testing, treatment initiation, treatment regimens and treatment monitoring is available. Please send an email to hiv@gems.gov.za to request a copy of the latest Clinical Guidelines.
- Please further note that pre-authorisation is required for Genotype HIV-resistance testing. The treating provider should submit a request and supporting documentation via email to hiv@ gems.gov.za, or fax to 0800 436 732.

Co-payments

Co-payments are incurred when members use non-formulary medicine that is charged above the MPL reference price.

In order to contain the escalating costs of medicines, GEMS uses the MPL to determine the maximum price the Scheme will pay for those medicines with the same active ingredients based on the availability of generic equivalents on the market. The fundamental principle of the MPL is that it does not restrict a member's choice of medicines, but instead limits the amount that will be paid should a member choose a medicine priced above the MPL. The MPL reference prices are carefully determined so as to ensure adequate availability of generic equivalents within the price limit, without co-payments being necessary.

As an FP, you can assist members to avoid undesirable co-payments by ensuring that all scripted items are within the Acute/Chronic Formularies. In addition, claims submitted from a non-DSP Pharmacy will also attract a 30% co-payment.

Co-payments on chronic medicine can be avoided by doing the following:

- To avoid a 30% non-DSP co-payment, patients must ensure that they claim their chronic medicine from an allocated DSP that forms part of the GEMS Pharmacy Network.
- To confirm or change an allocated Network pharmacy, please contact GEMS on 0860 00 4367 and then follow the prompts below:
 - Press '4' for Pre-authorisations and select your preferred language;
 - Press '3' and '2' as these selections are a shortcut to get help selecting a Network pharmacy or with other general chronic medicine queries.
- To avoid a 30% out-of-formulary co-payment for the member, the FP must prescribe medicines listed on the GEMS formulary.
- To avoid generic co-payments on medicines, patients should speak to their pharmacist about generic medicines and medicines within the GEMS MPL.

Value Added Programmes

Chronic Back and Neck Rehabilitation Programme

GEMS has established a Chronic Back and Neck Rehabilitation (CBNR) programme which provides GEMS beneficiaries with appropriate treatment to manage their chronic back and neck pain. Positive outcomes of this non-surgical programme include improving flexibility, restoring functionality, reducing pain and a decreasing or delaying in the need for surgery, which leads to a more productive life.

The focus of the CBNR programme is on back and neck rehabilitation with the major components being controlled exercises, biopsychosocial support and pain education. The FP located at some centres is the coordinator of spinal care and he/she is supported by a multidisciplinary team (including a physiotherapist and/or biokineticist and/or occupational therapist). Clinical measurements are taken and recorded and these are used to evaluate the progress of treatment over time.

The cost of the programme is paid from a separate CBNR benefit so that there is no financial impact on the member's day-to-day benefits or savings.

Should your GEMS patient require a referral to a CBNR network facility, kindly send an email to enquiries@gems.gov.za. For an updated CBNR network list please refer to the GEMS **website** or call the GEMS Call Centre on 0860 436 777.

How to update your practice profile details with GEMS

Please communicate all important changes to your practice profile in writing for updating on our systems. This includes requests to update your banking details and your dispensing status.

Please ensure that all your practice information, including contact details, are regularly updated at BHF.

GEMS 2024 Family Practitioner Guide

囹

Information required to update your banking details

In addition to your written request, please include the following:

- A signed practice letterhead (ALL partners' signatures are required, where applicable);
- If the bank account is in the name of a registered company, the Companies and Intellectual Property Commission (CIPC) papers must be included;
- A bank letter / bank statement (not older than three months) with a bank stamp;
- · Bureau manager's certified ID and signature on a letterhead (if applicable);
- A certified copy of the owners' IDs (where applicable, ALL partners' certified ID copies);
- · A certified marriage certificate (if applicable); and
- A 'trading as' letter (which can be indicated on the signed letterhead) if the practice name and the bank account holder names differ.

Please send all requests with the above supporting documentation to enquiries@gems.gov.za

⊘⊟

Information required to update your dispensing status

Providers who wish to register as a dispensing practice need to have a valid Dispensing License, which needs to be updated with the Board of Healthcare Funders (BHF). If you want to change your dispensing status, please inform the Scheme.

Please send all requests for the above changes, together with all supporting documentation, to **networkscontracting@gems.gov.za**. Requests will be reviewed and operationalised within 48 hours.

Please ensure that all your practice information, including contact details, are regularly updated at BHF.

Tanzanite One and Beryl - 2024 Radiology formulary

All codes not listed, require authorisation

MEDICAL PRACTITIONER	RADIOLOGIST	RADIOGRAPHY	CODE DESCRIPTION				
GENERAL							
Non-chargeable	Non-chargeable	39300	X-ray films				
SKULL AND BRAIN							
3349	10100	39039	X-ray of the skull				
FACIAL BONES AND NASAI	BONES						
3353	11100	39043	X-ray of the facial bones				
3357	11120	39047	X-ray of the nasal bones				
ORBITS AND PARANASAL S	SINUSES						
3353	12100	39043	X-ray orbits				
3351	13100	39041	X-ray of the paranasal sinuses, single view				
Non-chargeable	13110	Non-chargeable	X-ray of the paranasal sinuses, two or more views				
MANDIBLE, TEETH AND MA	XILLA						
3355	14100	39045	X-ray of the mandible				
3361	14130	39051	X-ray of the teeth single quadrant				
3363	14140	39053	X-ray of the teeth more than one quadrant				
3365	14150	39055	X-ray of the teeth full mouth				
3361	15100	39059	X-ray tempero-mandibular joint, left				
3361	15110	39059	X-ray tempero-mandibular joint, right				
3359	16100	39049	X-ray of the mastoids, unilateral - left				
3359	16100	39049	X-ray of the mastoids, unilateral - right				
3359	16110	39049	X-ray of the mastoids, bilateral				
THORAX		1					
3445	30100	39107	X-ray of the chest, single view - PA				
3445	30100	39107	X-ray of the chest, single view - lateral				
Non-chargeable	30110	39107	X-ray of the chest two views, PA and lateral				
3449	30150	39107	X-ray of the ribs				
ABDOMEN AND PELVIS	, 	·	·				
3477	40100	39125	X-ray of the abdomen				
Non-chargeable	40110	Non-chargeable	X-ray of the abdomen multiple views including chest				
Non-chargeable	40105	39125	X-ray of the abdomen supine and erect, or decubitus				

MEDICAL PRACTITIONER	RADIOLOGIST	RADIOGRAPHY	CODE DESCRIPTION
SPINE			
3321		39017	Skeleton: Spinal column - per region, e.g. cervical, sacral, lumbar coccygeal, one region thoracic
Non-chargeable	50100	39025	X-ray of the spine scoliosis view AP only
3321	51110	39017	X-ray of the cervical spine, one or two views - AP
3321	51110	39017	X-ray of the cervical spine, one or two views - lateral
3321	52100	39017	X-ray of the thoracic spine, one or two views - AP
3321	52100	39017	X-ray of the thoracic spine, one or two views - lateral
3321	53110	39017	X-ray of the lumbar spine, one or two views - AP
3321	53110	39017	X-ray of the lumbar spine, one or two views - lateral
3321	54100	39017	X-ray of the sacrum and coccyx
Non-chargeable	54110	39027	X-ray of the sacroiliac joints
PELVIS AND HIPS	·		
3331	55100	39027	X-ray of the pelvis
6518	56100	39017	X-ray of the left hip
6518	56110	39017	X-ray of the right hip
Non-chargeable	56120	Non-chargeable	X-ray pelvis and hips
UPPER LIMB			
6509	61100	39003	X-ray of the left clavicle
6509	61105	39003	X-ray of the right clavicle
6510	61110	39003	X-ray of the left scapula
6510	61115	39003	X-ray of the right scapula
6508	61120	39003	X-ray of the left acromio-clavicular joint
6508	61125	39003	X-ray of the right acromio-clavicular joint
6507	61130	39003	X-ray of the left shoulder
6507	61135	39003	X-ray of the right shoulder
6506	62100	39003	X-ray of the left humerus
6506	62105	39003	X-ray of the right humerus
6505	63100	39003	X-ray of the left elbow
6505	63105	39003	X-ray of the right elbow
6504	64100	39003	X-ray of the left forearm
6504	64105	39003	X-ray of the right forearm
6500	65100	39003	X-ray of the left hand
6500	65105	39003	X-ray of the right hand

MEDICAL PRACTITIONER	RADIOLOGIST	RADIOGRAPHY	CODE DESCRIPTION
3305	65120	39001	X-ray of a finger
6501	65130	39003	X-ray of the left wrist
6501	65135	39003	X-ray of the right wrist
6503	65140	39003	X-ray of the left scaphoid
6503	65145	39003	X-ray of the right scaphoid
LOWER LIMB	·		
6514	73100	39003	X-ray of the left lower leg
6514	73105	39003	X-ray of the right lower leg
6512	74100	39003	X-ray of the left ankle
6512	74105	39003	X-ray of the right ankle
6511	74120	39003	X-ray of the left foot
6511	74125	39003	X-ray of the right foot
6513	74130	39003	X-ray of the left calcaneus
6513	74135	39003	X-ray of the right calcaneus
6511	74140	39003	X-ray of both feet – standing – single view
3305	74145	39001	X-ray of a toe
6517	71100	39003	X-ray of the left femur
6517	71105	39003	X-ray of the right femur
6515	72100	39003	X-ray of the left knee one or two views - AP
6515	72100	39003	X-ray of the left knee one or two views - lateral
6515	72105	39003	X-ray of the right knee one or two views - AP
6515	72105	39003	X-ray of the right knee one or two views - lateral
Non-chargeable	72120	39003	X-ray of the left knee including patella
Non-chargeable	72125	39003	X-ray of the right knee including patella
6516	72140	39003	X-ray of left patella
6516	72145	39003	X-ray of right patella
Non-chargeable	72150	39003	X-ray both knees standing – single view
6519	74150	39003	X-ray of the sesamoid bones one or both sides - left
6519	74150	39003	X-ray of the sesamoid bones one or both sides - right

MEDICAL PRACTITIONER	RADIOLOGIST	RADIOGRAPHY	CODE DESCRIPTION
ULTRASOUND ABDOMEN A	ND PELVIS		
5102	61200	Non-chargeable	Ultrasound of the left shoulder joint
5102	61210	Non-chargeable	Ultrasound of the right shoulder joint
Non-chargeable	41200	Non-chargeable	Ultrasound study of the upper abdomen
3627	40210	Non-chargeable	Ultrasound study of the whole abdomen including the pelvis
3618	43200	39147	Ultrasound study of the pelvis transabdominal
3615	43250	39145	Ultrasound study of the pregnant uterus, first trimester
Non-chargeable	43270	39145	Ultrasound study of the pregnant uterus, third trimester, first visit
Non-chargeable	43273	39145	Ultrasound study of the pregnant uterus, third trimester, follow-up visit
3615	43277	39145	Ultrasound study of the pregnant uterus, multiple gestation, second or third trimester, first visit
3617	43260	39145	Routine obstetric ultrasound at 20 to 24 weeks to include detailed anatomical assessment
