

COMPREHENSIVE PMB FORMULARY

FEBRUARY 2021

Depending on the specific scheme option, products included on this chronic medicines formulary will not attract a co-payment if authorised by Chronic Medicine Management for a disease on the CDL and obtained from the Designated Service Provider (where applicable). **Reimbursement will however be subject to the Chronic Medicine Management clinical guidelines and protocols and the Medicine Price List (MPL).**

Please Note:

KEY to Chronic Medicine Management Reimbursement Criteria for use of preferred formulary drugs:

Quantity/dosage and duration of authorisation may vary - depending on the requested drug.

Accepted Treatment - will be authorised without requesting additional clinical information (unless specific concerns e.g. unusual dose requests).

Clinical Review - will be authorised if the drug history or co-morbidity clearly indicates that use of the drug is indicated in the specific patient.

Clinical Motivation - specific clinical information required before reimbursement is considered

Specialist Script - will require a relevant specialist's prescription before reimbursement is considered

Specialist Motivation - will require a relevant specialist motivation before reimbursement is considered

Special Investigations (SI) - results of recent relevant tests required before reimbursement is considered

NAPPI CODE	DRUG NAME	ACTIVE INGREDIENT	STRENGTH	DRUG FORM	CHRONIC MEDICINE MANAGEMENT REIMBURSEMENT CRITERIA FOR PREFERRED FORMULARY DRUGS
	Asthma				
	Inhaled B2 agonists				
706544	BEROTEC HFA 200 DOSE	Fenoterol	100MCG	INH	Accepted treatment
707882	DUOVENT HFA 200DOSE	Fenoterol and ipratropium bromide	50MCG/20MCG	INH	Accepted treatment
